- UI design, UX design and product design
- User research, personas, journey mapping and usability testing (Maze, UserTesting)
- Wireframing, prototyping and design systems (Figma, FigJam)
- Information architecture and accessibility

AI Training and Evaluation

- AI prompt writing and prompt testing
- AI content evaluation and quality assurance
- Data annotation, labeling, and classification
- Generative AI tools: ChatGPT, Claude, Gemini, Copilot

Research and Communication

- Research, fact-checking, and information synthesis
- Audience research and customer insights
- Digital marketing and campaign strategy
- Content writing, editing, and proofreading
- Social media and community management
- Clear written communication and documentation

Tools and Collaboration

- Spreadsheet analysis: Google Sheets, Microsoft Excel; visual design: Adobe XD, Photoshop, Illustrator
- Remote collaboration: Slack, Zoom, Google Workspace, Notion

PROFESSIONAL EXPERIENCE

Senior UI/UX Designer · Totago Technologies · 825 Watters Creek Blvd, Bldg M, Ste 250, Allen, TX 75013, USA · Contract, 2022

- Lead designer of a report and dashboard builder with collections profiles (AI summary and risk score) for finance staff and admins; designs delivered to developers.
- Lead designer of TaskGynie, a home-services marketplace for customers, providers and admins.

Senior UI/UX Designer · Noble Pay · USA and Liberia · Contract, 2024

- Designed payment and money-transfer flows, tiered KYC onboarding and mobile UI for an app launched on iOS and Android.
- Studied competitor apps, mapped flows, tested a prototype, and contributed to the design system.

Senior Product Designer and Lead Instructor · Tech 365 · Nigeria · 2023 – 2024

- Taught UI/UX fundamentals, product design projects and portfolio coaching; built a curriculum others now teach from.
- Designed the course platform and led product design projects.

SELECTED PROJECTS

- OYSHC (Oyo State Housing Corporation, Nigeria): lead product designer of a ground-rent payment and tracking platform, now live; research with stakeholders, journey mapping and testing with the client and users.
- Rent2Ryde: sole product designer of a marketplace connecting vehicle owners and renters; design handed off to developers.
- Tek Gilead: lead designer of a services website; and a route and navigation app for drivers, delivered to developers.

EDUCATION

Computer Science · Imo State University, Nigeria · 2016 – 2020
